INDEX OF AUTHORS

ADNET, J. J. 239
ALDEBERT, B. 65
ANDRIES, L. 37
APPLEYARD, S. T. 105
ARCHIDIACONO, N. 21

BALDINI, A. 21
BISHOP, C. J. 169

CHANG, L.-Y. 283
COOKSLEY, W. G. E. 169
CROSS, N. L. 193

DALE, B. 153
de CAPOA, A. 21
DECKER, M. L. 119
DECKER, R. S. 119
DOMNINA, L. V. 267
DOW, J. A. T. 137
DUBOWITZ, V. 105
DUNIA, I. 51

FUSELER, J. W. 119

GELFAND, I. M. 267
GUPTA, B. L. 137

HALL, T. A. 137
HALLIDAY, J. W. 169
HALLIDAY, W. J. 169
HARVEY, W. R. 137
HASTON, W. S. 75
HOLLAND, L. Z. 193

KAMIYA, R. 181
KERR, J. F. R. 169

LACHNEY, C. L. 219
LONERGAN, T. A. 219

MARLEKAJ, P. 21
MAZET, F. 51
MAZET, J. L. 51
MENAGER, M. 239

NETTESHEIM, P. 283

OKAMOTO, M. 181

PÉBUSQUE, M.-J. 65
PLOTON, D. 239
POWELL, L. W. 169

RAHAT, M. 257
REICH, V. 257
RIPLEY, B. D. 105
ROCCHI, M. 21
ROVENSKY, J. A. 267

SANDERSON, C. J. 207
SANTELLA, L. 153
SEITE, R. 65
SHIELDS, J. M. 75
SHOTTON, D. M. 105
SLEZYNGER, T. C. 193
STACEY, N. H. 169
STRATH, M. 207

TETLEY, L. 1
THOMAS, V. 119

VAKAET, L. 37
Van HOOF, J. 37
VANROELEN, Ch. 37
VASILIEV, J. M. 267
VASSORT, G. 51
VICKERMAN, K. 1
VIO-CIGNA, M. 65

WITKOWSKI, J. A. 105
WU, R. 283

YOUNG, R. D. 95

INDEX OF SUBJECTS

Amino acid methyl esters
effects on lysosomal membrane permeability in cultured cardiac myocytes: DECKER, DECKER, THOMAS & FUSELER 119
Apopstosis
mode of cell death in antibody-dependent lymphocytotoxicity: STACEY, BISHOP, HALLIDAY, HALLIDAY, POWELL & KERR 169

***Bacillis thuringiensis* insecticide**
effects on ions of *Manduca* larvae midgut: GUPTA, DOW, HALL & HARVEY 137
Bone marrow
eosinophils, production and function: STRATH & SANDERSON 207
Boundary lipids
of *Manduca* larval cells, effects of *B. thuringiensis* insecticide: GUPTA, DOW, HALL & HARVEY 137
Breast cancer tissue
human, ultrastructure of Ag-NOR and ribonucleoproteins: PLOTON, MENAGER & ADNET 239

Cardiac myocytes
responses to lysosomotropic compounds and amino acid methyl esters: DECKER, DECKER, THOMAS & FUSELER 119
Caveolae
distribution on freeze-fractured muscle fibres: APPLEYARD, WITKOWSKI, RIPLEY, SHOTTON & DUBOWITZ 105
Cell culture
morphology during adaptive and early growth phase of tracheal cells: CHANG, WU & NETTESHEIM 283
Cell death
by apoptosis in antibody-dependent lymphocytotoxicity: STACEY, BISHOP, HALLIDAY, HALLIDAY, COOKSLEY, POWELL & KERR 169
Cell motility
in gastrulating chick and quail embryos: ANDRIES, VANROELEN, VAN HOOF & VAKAET 37
Cell shape
of epithelial cells after microtubule-destroying drugs: DOMNINA, ROVENSKY, VASILIEV & GELFAND 267
regulation in *Euglena*: LACHNEY & LONERGAN 219
Cell spreading
of epithelial cells after microtubule-destroying drugs: DOMNINA, ROVENSKY, VASILIEV & GELFAND 267
Chemotaxis
factors in behaviour of neutrophil leucocytes: SHIELDS & HASTON 75
Chick embryo
inhibition of cell spreading: ANDRIES, VANROELEN, VAN HOOF & VAKAET 37
Chlamydomonas
mutant lacks flagellar outer dynein arm, but swims: KAMIYA & OKAMOTO 181
Chlorella
ability to form symbiosis with *Hydra*: RAHAT & REICH 257
Circadian rythm
of nucleoli in rat superior cervical ganglion nerves: PÉBUSQUE, ALDEBERT & SEITE 65
Collagen
ultrastructural organization in scleral matrix: YOUNG 95
Cuprolinic Blue
in ultrastructural study of proteoglycans and collagen in scleral matrix: YOUNG 95

Differentiation
in cultured tracheal cells: CHANG, WU & NETTESHEIM 283
Dynein
flagellar outer arm missing in swimming mutant of *Chlamydomonas*: KAMIYA & OKAMOTO 181

Egg envelope
of *Urehis caupo*, isolation and characterization: CROSS, SLEZYNGER & HOLLAND 193
Electrical events
in sperm–oocyte interaction in the sea-urchin: DALE & SANTELLA 153
Eosinophils
from bone marrow cultures, structure and function: STRATH & SANDERSON 207
Euglena
regulation of cell shape: LACHNEY & LONERGAN 219

Fertilization
in *Urechis caupo*: CROSS, SLEZYNGER & HOLLAND 193

Flagella
of mutant *Chlamydomonas* lacks outer dynein arm but swims: KAMIYA & OKAMOTO 181
role in attachment: TETLEY & VICKERMAN 1
Freeze-fracture
of plasma membranes, pattern analysis: APPLEYARD, WITKOWSKI, RIPLEY, SHOTTON & DUBOWITZ 105
Freeze-fracture EM
in study of changes in gap junctions associated with CO_2 uncoupling in frog atrial fibres: MAZET, DUNIA, VASSORT & MAZET 51
Frog heart
atrial fibres, ultrastructural changes associated with CO_2 uncoupling: MAZET, DUNIA, VASSORT & MAZET 51

Gap junctions
ultrastructural changes associated with CO_2 uncoupling in frogs: MAZET, DUNIA, VASSORT & MAZET 51
Gastrulation
in chick and quail embryos: ANDRIES, VANROELEN, VAN HOOF & VAKAET 37
Gene activity
modified by serum concentration: de CAPOA, MARLEKAJ, BALDINI, ARCHIDIACONO & ROCCHI 21

Hydra
in symbiosis with free-living *Chlorella*: RAHAT & REICH 257

Junctional complexes
between trypanosome flagella and host cells: TETLEY & VICKERMAN 1

K-cells
antibody-dependent lymphocytotoxicity: STACEY, BISHOP, HALLIDAY, HALLIDAY, COOKSLEY, POWELL & KERR 169
K^+-pump
inhibition, by *B. thuringiensis* insecticide in *Manduca* larvae: GUPTA, DOW, HALL & HARVEY 137

Longitudinal resistance
in study of gap junctions of frog atrial fibres: MAZET, DUNIA, VASSORT & MAZET 51
Lymphocyte–
induced death, nuclear abnormalities precede lysis: STACEY, BISHOP, HALLIDAY, HALLIDAY, COOKSLEY, POWELL & KERR 169
Lymphokines
in study of eosinophil differentiation activity: STRATH & SANDERSON 207
Lysosomes
secondary, effects of amino acid methyl esters on: DECKER, DECKER, THOMAS & FUSELER 119

Manduca sexta
larval midgut epithelium, effects of *Bacillus thuringiensis* insecticide on ions: GUPTA, DOW, HALL & HARVEY 137
Membrane
plasma, freeze-fractured, pattern analysis: APPLEYARD, WITKOWSKI, RIPLEY, SHOTTON & DUBOWITZ 105
Microanalysis
of *B. thuringiensis*-treated midguts of *Manduca* larvae: GUPTA, DOW, HALL & HARVEY 137
Microtubules
effect of destroying drugs on spreading and shape of cultured epithelial cells: DOMNINA, ROVENSKY, VASILIEV & GELFAND 267
in regulation of cell shape in *Euglena*: LACHNEY & LONERGAN 219
Mitosis
ultrastructural localization of Ag-NOR proteins and ribonucleoproteins: PLOTON, MENAGER & ADNET 239
Muscle
fibre membranes, distribution of caveolae shown by freeze-fracture: APPLEYARD, WITOWSKI, RIPLEY, SHOTTON & DUBOWITZ 105

Neutrophil locomotion
in uniform concentrations of chemotactic factors: SHIELDS & HASTON 75
NOR
during mitosis in human breast cancer tissue: PLOTON, MENAGER & ADNET 239
Nucleolar-organizing regions (NORs)
and fibrillar centres in circadian rythm in rat ganglion nerves: PÉBUSQUE, ALDEBERT & SEITE 65
Nucleoli
in ultrastructural study of mitosis in breast cancer: PLOTON, MENAGER & ADNET 239
Nucleolus organizers
cytochemical staining in study of effects of serum concentration on ribosomal gene activity: de CAPOA, MARLEKAJ, BALDINI, ARCHIDIACONO & ROCCHI 21

Oocyte
interaction with sperm in sea-urchin: DALE & SANTELLA 153

Pattern analysis
of freeze-fractured plasma membranes: APPLEYARD, WITKOWSKI, RIPLEY, SHOTTON & DUBOWITZ 105
Polarity
of neutrophil leucocytes: SHIELDS & HASTON 75
Proteoglycans
ultrastructural organization in scleral matrix: YOUNG 95

Ribonucleoproteins
during mitosis in breast cancer tissue: PLOTON, MENAGER & ADNET 239
Ribosomal genes
activity modified by serum concentration: de CAPOA, MARLEKAJ, BALDINI, ARCHIDIACONO & ROCCHI 21
Ribosomal RNA transcription
modified by serum concentration: de CAPOA, MARLEKAJ, BALDINI, ARCHIDIACONO & ROCCHI 21

Sea-urchin
sperm–oocyte interaction: DALE & SANTELLA 153
SEM
in study of inhibition of cell spreading in chick embryos: ANDRIES, VANROELEN, Van HOOF & VAKAET 37
Sclera
human and rabbit, ultrastructure of proteoglycans and collagen: YOUNG 95
Sperm
interaction with oocyte in sea-urchin: DALE & SANTELLA 153
Sperm–egg binding
in *Urechis caupo*: CROSS, SLEZYNGER & HOLLAND 193
Surface coat
acquisition by *Trypanosoma brucei*: TETLEY & VICKERMAN 1
Symbiosis
between *Chlorella* and *Hydra*: RAHAT & REICH 257
Sympathetic neurons
circadian rhythm in nucleoli: PÉBUSQUE, ALDEBERT & SEITE 65

Tracheal cells
adaptive and early growth phase in culture, morphology: CHANG, WU & NETTESHEIM 283
Trypanosoma brucei
differentiation of metacyclic stage: TETLEY & VICKERMAN 1
